The Swiss Bankers Association and the Swiss financial centre

Swiss Bankers Association (SBA)
The Swiss Bankers Association
The Swiss Bankers Association advocates for entrepreneurial freedom that enables banks to innovate and develop.

Herbert J. Scheidt, Chairman of the Swiss Bankers Association
“As the umbrella association of Switzerland’s banks, we focus concerns and combine strengths into a consolidated position, and act as a powerful voice representing our diverse banking sector. Together, we achieve more for the Swiss financial centre.”

Jörg Gasser,
CEO, Swiss Bankers Association

...institutions are members of the Swiss Bankers Association.

...members of staff (full-time equivalents) at the SBA’s offices support the committees, working groups and public relations activities.
Priorities of the SBA 2021 - 1/3

- **Sustainable finance:** The Swiss financial centre aims to become a leading international location for sustainable finance. The SBA is committed to promoting market-based framework conditions and, in the area of sustainability, is focusing on current issues relating to *disclosure* and *classification*.

- **Digitalisation:** The SBA supports technology-neutral framework conditions and innovative business models, particularly in the area of *open finance*. At the same time, *cyber risks* must be countered with an effective defence system that is coordinated among all stakeholders.
• **Financial market regulation:** The SBA is committed to a commensurate implementation of the international *Basel III final* standards. The competitiveness of the Swiss financial centre is to be taken into account as part of this process. In addition, the SBA advocates an effective and balanced revision of *depositor protection* as part of the current partial revision of the Banking Act. An appropriate cost-benefit ratio is to be ensured.

• **Regulation:** The SBA supports the current revision of the *Anti-Money Laundering Act* in order to take international requirements duly into account. In addition, the SBA supports its members in the implementation of the *Financial Services Act (FinSA)* and the *Financial Institutions Act (FinIA)*, which have entered into force, and is adjusting its self-regulation models accordingly. The SBA is also committed to a modern *trust law* in Switzerland.
Priorities of the SBA 2021 - 3/3

- **Tax framework:** The abolition of *stamp duty* as well as an implementation-friendly reform and partial abolition of *withholding tax* are designed to strengthen the Swiss capital market. At the international level, Switzerland’s attractiveness as a business location is to remain unchanged in terms of the *tax on corporate profits*.

- **Market access:** Good market access is vital for Swiss banks in order to offer their services in target markets in a way that meets the needs of their customers. As an export-oriented industry, the banks require improvements both with regard to the EU and at the *bilateral country level*. 
The SBA has 267 member institutions, of which 215 are banks.

The following members of member institutions can become individual members: chairmen, vice-chairmen, members of the executive board and senior management. They alone have a voting right at the general assembly.
**Commissions**
More than 500 representatives of member banks work on a voluntary basis in the steering committees, commissions and working groups.

**Secretariat**
Main office in Basel, other offices in Bern, Geneva and Zurich; around 55 full-time equivalents

* The Asset Management steering committee corresponds exactly to the Board of the Asset Management Association Switzerland (AMAS).
The Swiss Bankers Association works to ensure that all banks – irrespective of their business model and size – enjoy the best possible operating conditions in Switzerland, which allow for effective competition, development and success. We are therefore committed to promoting entrepreneurial freedom and open markets.

From the SBA’s mission statement
The mission of the Swiss Bankers Association

- Representing the interests of the banks
- Facilitating the exchange between banks and bank employees
- Training of junior staff and executives
- Promoting the image of the Swiss financial centre
- Developing self-regulation
- Foster an open dialogue with the public
